Hi Jack. Here is the breakdown of the quote we discussed. I have it priced if you pick anything between 36 x 36 inches to 38 x 38 inches.

Thank you again for your interest. We take pride in our work and love making furniture. We truly want every client to love their new custom piece. Every piece of furniture we build comes from sustainably harvested wood. The maple is sourced right in here in the United States. Each piece of lumber starts with 2 inch stock, and is hand planed to final thickness. We use food safe, FDA approved glues in making our tables. We hand rub your choice of stain and spray every table with a protective conversion varnish finish. Our coating is durable, low maintenance, and liquid resistant.

We are committed to the environment and replacing what we use. We have a new tree planted for every piece of furniture we build and sell.

If you have any questions please reach out.
